Bachelor of Science Degree in Graphic Design
Completed classes in Typography, Visual Principles, Multimedia for the WWW, Photography, Digital
Photography, Production Management, Corporate Identity

Sierra College, California 2002
Associates Degree in Liberal Arts

EXPERIENCE **2008–Present/ Apexcare/Careology/Alta Manor – Graphic Designer**

Became the first graphic designer for the 3-tier company. The companies specialize in senior citizen care and the training of caregivers. I have already created a new website, brochure and other marketing material for Alta Manor, a new senior living facility in Roseville, Ca.

2005–Present/ Fiddymment Farms – Freelance Graphic Designer

Fiddymment Farms, a pistachio company, was my first graphic design job. I worked full time over the past 3 years and have recently moved on and continued design work for them as a freelancer. Over the past few years I have updated the packaging of all their pistachio products, from creating a color palette used to represent all their flavored pistachios, to creating a brand new gift line of products including gift boxes with special tins as well as special packaging for the different holidays of the year. I also maintain their website and online store (www.fiddymmentfarms.com)– updating it with new products and images. I have also created a new modern logo for the company to be used in modern packaging and future business uses. I am also the screen printer for the company, making t-shirts and soon will be printing on burlap bags. My latest project has been creating a new outlet for the company to sell pistachios for the use as bird treats. The project included creating the new brand identity, packaging labels and a new website with an online store (www.pistachiotreats.com).

2008–2009/ City of Roseville – Marketing Specialist I

Worked a short part-time job for the City of Roseville where I designed and laid out the 2009 Camps and Aquatic Recreation 2-flip guide.

2006/ Started my freelance company TYDZN Graphic Design Studio. Recent work has been creating a new label for an online coffee company e-java.com and a brochure for local massage therapist specialists.

ACHIEVEMENTS **1997–2005/ Longs Drugs – Photo Lab Supervisor**

Worked in the photo lab at Longs Drugs as the lab supervisor where I processed negatives and printed pictures. Each negative was examined and colors and densities adjusted for maximum quality. I made enlargements up to 8x12, printed sheets of wallets, made photo CDs and greeting cards. I also photographed and developed pictures for passports as well as sell and promote cameras, razors and other electronic devices.

1996/ I was awarded the rank of Eagle Scout, the highest possible rank one can achieve in the Boy Scouts of America.

2006/ In the 2006 Sacramento State Spring Show, my Flash based video entitled “Nightmare” was acknowledged and put on display for guests and fellow designers to view.
